Siva Prakasam Ganesan

Kumbakonam, Thanjavur district, TN - 612001

Mobile No. : (+91)6374399577, Email : prakasams22@gmail.com   **sivaprakasam7.github.io**

React Developer with expertise in building custom web applications using React.js and Node.js, as well as experience in developing Blockchain apps using Solidity and Web3. The skills mentioned, such as integrating third-party APIs and optimizing website performance.

Technical Skills

- React.js
- HTML/CSS
- Javascript / Typescript
- Solidity

- Node.js / Express
- Firebase
- SQL
- Linux and Server handling

Experience

React developer - present   Chennai|AUG 2021

Pyramidions Solutions

- Created reusable components and UI libraries using React.js that reduced development time and improved consistency across projects.
- Optimized website performance by implementing best practices for code optimization, asset loading, and caching.
- Created Solidity smart contracts for NFT projects on the Ethereum blockchain, allowing for the secure and transparent exchange of unique digital assets with front-end integration

Education

Bachelor of Mechanical Engineering

Arasu engineering College

2017-2021

Projects

React Dev Custom Components   **dev-reacts.web.app**   2022

It's an open-source platform to build web apps faster with pre-built Hooks, Components, and Shared Logics coded by other developers. Components are independent and reusable bits of code.

Demo Crypto   **democrypto-7f0f3.web.app**   2022

Crypto trade practice platform to people learn about crypto different trading logics with coinbase realtime data from websocket

Book Donation   2021

React app to encourage people to donate books with Views and Hooks based structure

Course Certification

I have developed my skills through self-directed learning, including online resources such as YouTube.
